RELEVANT EXPERIENCE

Unico Studio   Remote, Palo Alto, USA
Full Stack Web Developer   April 2022 - June 2023

- Spearheaded the development of the 2 product websites; Unico Studio and Age of Brainos, as well as other platforms. Worked closely with the project manager, helping them with their tasks and satisfying all 7 PRINCE2 processes.
- Implemented innovative markdown-based client-side rendering system for dynamic content creation, decreasing workload by up to 40 times what it was between content creation teams.
- Collaborated with an agile team utilizing FastAPI and VueJS to implement scheduled updates to the business intelligence side of the company, ensuring a modern, responsive product with continuous improvement.

TFN Bilisim   Remote, Istanbul, Turkey
IT Project Manager, Co-Founder   September 2019 - February 2021

- Managed the successful development of complex Python-based web applications for fitness salons, restaurants, and property rentals.
- Effectively addressed staff issues and client demands, resulting in improved team morale and customer satisfaction.
- Implemented strategies that enhanced team productivity, development speed, and overall project outcomes.

Toyota Motor Europe   Sakarya, Turkey
Software Engineer Intern   August 2019 - September 2019

- Developed an internal feedback system to facilitate company production line observation. Reported to the Project Manager.
- Collaborated with Toyota Motor Europe through meetings, demonstrating effective communication and problem-solving skills to meet the company's requirements.

RELEVANT PROJECTS

Teothe Web Application *Project Link:* `https://teothe.com/`   2022 - Ongoing
As project lead for the Teothe Web App's transition to an independent tabletop setting dashboard, I directed the implementation of a hybrid architecture, resulting in a 250% surge in active users. I orchestrated a 40% boost in user engagement by enhancing the app's UX. Additionally, I managed 100+ meetings, tasks, and project upkeep, fostering effective communication among 7 team members and stakeholders to meet project goals and employer demands.
